Your Honor, even when mt law firm duly records dates from federal judge and federal magistrate orders, they are being moved on the calendar or deleted.

Last week I emailed indicating urgent matters had drawn me out of town, and received an email from your staff that the Rule 16 was on the Cory calendar for today.

I was not able to plan for that and I still out of town. Plaintiff are fine with the court entering a scheduling order based on the 26f, but the request an early mandatory settlement conference with hhe court.
